

A New Adultchildren.org website is coming soon!!!

The ACA WSO (World Service Organization) is launching a newly designed adultchildren.org website in early June. A big part of this design is a big change for the **Meetings lists** feature. To help ensure that the information is accurate, we are asking for your feedback on how the new site works and at the same time to also update your group's meeting list information using the new site.

With any change as big as this there will be some issues. Therefore, we ask for your patience and understanding as we work together to make the meeting lists and website better for everyone.

Please test out the new website before it goes live at ***wp.adultchildren.org***.

Updating a Meeting

We have added a layer of security for meeting updates. Only the registered WSO contact will be able to update meeting information on the new website. To make an update, first you must locate your meeting on the list. Then click on the "Update This Meeting" button. An email is then generated to the registered WSO contact with a link to a webform to update the meeting.

We are aware that for some meetings, the person who registered the meeting may no longer be available to make the updates. In these cases, send an email to meetings@acawso.com and we will make sure a valid group contact is registered for the meeting.

Please go ahead and test the meeting update process for your meeting as soon as possible and contact us at the email address above if you have problems.

Registering a new Meeting

When registering a new meeting we require both a Primary and Secondary contact email to ensure that at least one of the emails will be active when a change needs to be made to the group's information.

The Primary email contact will receive a verification email. When received, simply click on the link to verify the email is active.

More changes

Other changes you'll see on the new site are:

- A week's worth of meditations from ***Strengthening My Recovering*** – our WSO meditation book
- **Regions and Intergroups** now have their own tab on the main menu to make them easier to find. Let us know how we can improve the presentation of this information.
- Meeting List Search results is different – Let us know if you have any problems and/or if you have a suggestion for improving this function

Website Maintenance

- The site will be easier for us to make changes, so information will be more relevant
- We can change the design of the website more easily – if you have website design skills, please let us know and get involved
- As mentioned above, we are fixing the problems with meeting database to prevent having meetings be deleted and added because of bugs in the current system

Please provide any feedback to meetings@acawso.com

This test website - wp.adultchildren.org – is available now, so please check it out. We will address any issues that you send to us before it goes live. We plan on going live in early June.

Thank you for your help in making the ACA website better!!!!
