

## Monthly European Committee Report

JUNE 2020

[www.acawsoec.com](http://www.acawsoec.com)

This month's teleconference was a great success with 19 people attending the monthly meeting, representing members from over 10 different countries.

We have had meetings with Lithuania to support them on their first virtual convention. As well as meetings with Poland about their completion of literature, and with Ukraine. There has been a lot of contact and a meetings with the Spain Fellowship to rebuild their IG, and it also includes their translating process getting more literature accessible in Spain?

I had the privilege to be asked to step up as a board member of the WSO board of trustees and I gratefully accepted my nomination. I am still learning the ropes, but it means that the direct contact with the WSO makes it easier for the EC to do our service.

We will soon have a meeting with the host committee, for our annual European event in Greece, and hopefully get some clarity about whether it is going to be a virtual event or a face to face event, due to covid 19.

We always look for more people willing to do service in the EC. If you feel you want to do that. Please contact: [ec-chair@acawso.org](mailto:ec-chair@acawso.org).

The service position vice **chair for literature** is now vacant and we are looking for new officers. See further down in this document for contact info. We are also looking for people with working knowledge of graphic design laying out and having contact with publishers regarding new translated literature. You will find our contact information below:
