

Monthly European Committee Report

JULY 2020

www.acawsoec.com

This month's teleconference continued attracting new people and countries to the monthly meeting. Poland joined for the first time.

The details of the Service Sponsor role have been finalized and agreed by the European Committee and an invitation letter to apply for this service position has been sent to all subscribers and intergroups in Europe. The intergroups were asked to circulate the information to their local meetings and fellows. A few replies were received. Next steps: wait until 1st September for applications and then depending on the outcome come up with next possible steps.

The work to provide support to countries working with translation and printing of their own translated literature continues. More countries ask for help and it is joy to see.

We had meetings with the Greece fellowship who listened to the group conscious in Greece.

Unfortunately, they didn't see any possibility to hold the European Annual event face to face because of Covid 19. They did not have the people to do it virtual either. They have asked if they could do it next year and we will look into that later this year.

EC have talked about arranging the European Annual Event by ourself, with help from the fellowship. We have had one meeting and more information will come.

We always look for more people willing to do service in the EC. If you feel you want to do that. Please contact: ec-chair@acawso.org.

The service position vice **chair for literature** is now vacant and we are looking for new officers. See further down in this document for contact info. We are also looking for people with working knowledge of graphic design laying out and having contact with publishers regarding new translated literature. You will find our contact information below:
