Mission Statement: To address safety issues related to environments during the coronavirus pandemic, and develop a long-term strategy and potential resources to help the ACA fellowship effectively address other safety issues.

We are working on completion of the Service Norms document. The norms of conduct are intended to help promote trust and encourage respectful communication and behavior consistent with the ACA Traditions and Concepts. The central goal is not to eliminate differences, but to support us all in resolving conflicts in a healthy manner using program tools.

We are meeting twice each month so that we can finish the document. We will meet again on October 15, 2022 at 4 pm Eastern.
