I am a grateful and hopeful Adult Child from Toronto, Canada. My life has been completely transformed. I am living in the promises most of the time and when more wounds rise up through triggers, I now have hope and ACA tools to continue my healing process. I started service in my second year and discovered another layer of healing with many opportunities to integrate my ACA program in a service environment. I believe healthy service for me is working on what calls my heart and finding a service/life/work balance. I am a work in progress and inspired when working with members who live in the traditions and with the loving parent. My passion is with Tradition 5 in ensuring affordable and accessible literature around the world. I am committed to working with our delegates, volunteers, staff, members and Trustees to ensuring a world service that is healthy and follows the traditions, concepts and commitments of service. I love gardening, meditation, animals & time with my adult children and friends.
