**Conclusion:** People like to hear about upcoming events and study groups on Facebook.
We tested Instagram at the beginning of 2024 which resulted in:

• Reach (number of people who saw ACA's content): 26.8K
• Content Interactions (likes and comments): 2.9K
• New visitors to the profile: 1K
Launch of Instagram

Instagram has a viral component allowing our videos to reach wider audiences for free. In the span of a year leading up to 25K people reached on Facebook, we have come close to achieving the same on Instagram in 3 months.
Video Reels are an effective way to reach an audience outside of our current followers.

We can have videos featured on the explore page to reach a whole new audience.

Reels get 22% more engagement than traditional videos.

Conclusion: Short-form video, such as Reels, is in high demand.
The highest performing content in the last four months has been this video on grief work featuring **an Actor**. Video content outperforms any photo content, with faces performing the best. Our content performs better than the industry average. There is a strong need for ACA’s message on Instagram.

There are posts that are already getting viral responses with 1K to 2K views. We are learning over time what kinds of content work best.

We have also found success reaching people who affiliate with AA as they respond well to our posts.
We're using the same videos on TikTok as we are on Instagram to maximize time used to create videos and their reach. The highest performing content in the last four months saw:

**Example post:**
**Reach:** 1,665  
**Watch time:** 3 hours 30 minutes  
**Interactions:** 34

**PAID ACTOR.**
Our goal is to use these two platforms for their high organic reach potential using video to spread the ACA message and grow an online community of fellow travelers.
