My hope is to assist in representing Delegates and Volunteers throughout ACA to increase ACA's presence/awareness/strength at the local, national, and worldwide levels to bring/extend ACA to the many Adult Children who still suffer.

Additionally, I hope to help promote wider understanding and awareness of the ACA Traditions and Concepts, by assisting in the creation and adoption of an ACA Charter to strengthen our service structure model. I believe this work will aid ACA broadly by clarifying service terminology and processes, to increase the productivity of business meetings, and allow them to increasingly reflect Fellowship and Delegate Group Conscience. I firmly believe in the ACA Concepts and believe we need more structure to effectively carry them out.

Lastly, I believe my strength in both 'for profit' and 'non-profit' financials, accounting, and business operations can help ACA WSO to remain financially sustainable and to continue building a foundation that will ensure ACA remains financially sound for the next century and beyond.
