ACAD WSO Literature Editing Subcommittee

Literature written by Adult Children, for Adult Children, powered by Adult Child Volunteers.

Refining our words
with care and clarity.

Calling Fellow Traveler Editors and Planners

Help carry the ACAD message through the gift of editing.

Are you a Fellow Traveler with editing experience? We invite you to volunteer. Your skills can help the next adult child encounter a clear, compassionate message of recovery.

The ACAD WSO Literature Editing Subcommittee serves the Fellowship and reports to the WSO Literature Committee and WSO Board. We partner with authors, evaluators, publishers, and translators to develop, refine, and steward ACAD literature through collaborative editing, consistent standards, transparent processes, and continuous improvement. Our purpose and vision are to keep the message clear, accurate, accessible, inclusive, and faithful to ACAD principles for generations to come.

How Your Planning and Editing Skills Help

- Refine structure and language for clarity, consistency, and inclusivity.
- Copy edit and proofread with care for ACAD terminology and principles.
- Help develop shared editorial standards and improve editing processes.

Current Projects

- Ready, Set, GO! Workbook
- Boundaries
- Loving Parent Guidebook post-Fellowship Review
- Loving Parent Daily Reader

Your Time Can Make a Difference

Today, developing and publishing new ACA literature can take over 4-5 years. With more volunteers helping with editing, writing, coordination, and supporting authors, we believe we can shorten this time.

Every volunteer brings us closer to sharing new literature with adult children around the world. We sometimes hope someone else will step forward. Perhaps this is your opportunity to make a difference. Whatever time and skills you can offer, your service can help carry the ACAD message to those still seeking recovery.
